ABOUT ME

The path to software development has been long and winding, but a few things have crystalized along the way.. I need an outlet for my creativity, I love new technology, and I thrive in a team based environment. I'm an avid Liverpool supporter, cat dad, coffee nerd, and outdoor enthusiast.

EDUCATION

SOFTWARE ENGINEERING

NASHVILLE SOFTWARE SCHOOL

AUDIO TECHNOLOGY

SAE INSTITUTE NASHVILLE

BACHELOR OF ARTS, PSYCHOLOGY

UNIVERSITY OF TENNESSEE

EXPERIENCE

NASHVILLE SOFTWARE SCHOOL

6 MONTH FULL STACK BOOTCAMP | AUG 2019 - FEB 2020

- **Front End Capstone.** Built a browser based application utilizing React, Reactstrap, Javascript, HTML, and CSS called RecordCollector. Called an external API to return album information that is saved to a catalogue or wishlist with full CRUD functionality.
- **Celebrity Tribute.** Worked with a team to create a tribute website for Amy Winehouse using just HTML and CSS.
- **Welcome to Nashville.** Worked with a team to create a tourism application for a client interested in the sports scene in Nashville. Utilized the Ticketmaster API to create an itinerary relevant to the client's interests. Built with Javascript, HTML, and CSS.
- **Nutshell.** Worked with a team to create an application for a goth sweet 16 party. The application displays user specific news, task list, event list, chat, and friends list. Each module utilized CRUD functionality. Built with Javascript, HTML, and CSS.
- **Nutshell React.** Worked with a team to create an application to manage the social lives of vampires. The application displays user specific news, task list, event list, chat, and friends list. Each module utilized CRUD functionality. Built with HTML, CSS, React.js, and Reactstrap.

F&B MANAGER

OMNI HOTELS AND RESORTS | JUL 2016 - JUL 2019
