Summary

Software developer that excels in dynamic environments and brings a high level of dedicated focus to tasks at hand. Proven team player who is eager to learn new technologies and apply them to the growth of an organization.

Experience

Electrical Banana Vintage

Web Developer

April 2020 to Present

- Designed and developed Shopify E-commerce website to sell vintage clothing with an emphasis on a clean, intuitive design
- Designed company logo and marketing materials
- Developed social media and SEO strategies to attract new customers

Nashville Software School – Nashville, TN

Full Stack Web Development

August 2019 to February 2020

- Source code version control with **Git/GitHub** and project tracking with Github Projects
- **JavaScript, React, C#** fundamentals using DRY, modular, readable code and reusable components
- **React, HTML, CSS** built browser-based single-page applications
- **MVC, C# ASP.Net Entity Framework, SQL server** full stack applications
- Hands on application of **Object Oriented Programming** fundamentals
- Group and individual projects reflecting real world team dynamics and problem solving
- Experience using **Bootstrap** to style web applications

Group Projects

- Nutshell: Collaborated with 2 teammates to create a single-page social platform that allowed users to organize news articles, events, tasks, and chat with other users
- Utilized **React JS** and **JSON** server for persistent data storage
- Implemented user-specific CRUD functionality for the task module

C#/.NET

- Bangazon Workforce Management: **ASP.NET** and **MVC** internal web app for HR and IT to manage resources. Responsible for creating the Training Programs controller with full CRUD
- Bangazon Web API: Exposed resources from server to app developers of e-commerce store. Role included creating models/controllers with CRUD functionality for "Departments" and "Computers" resources and writing integration tests

Solo Projects

RecordCollector. A web application built in **React** used to compile album information in a catalogue and wishlist format. I built this application to help manage my vinyl collection. Utilizing the **Discogs API** I was able to acquire album information and then save it to a catalogue or wishlist **JSON** database with full CRUD functionality. Additional technology used includes **JSX, CSS, and Reactstrap**.

FriendlyFood. A full stack application built with **MVC, C# ASP.Net Entity Framework, SQL server, Bootstrap, and Identity**. I built this application to help people with dietary restrictions find restaurants and meals that suit their needs. Users can maintain searchable lists of meals and restaurants, add dietary tags, and add them to a favorites list.

Omni Hotels – Nashville, TN
Food and Beverage Supervisor

July 2016 to July 2019

- Improved efficiency in inventory, labor and point-of-sale management using Oracle MICROS
- Supervised the ordering of product, inventory control, and merchandising
- Conducted service and product training

Cumberland Heights Treatment Center – Nashville, TN
Quality Management Specialist

June 2015 to July 2016

- Completed data analysis using Excel to compile monthly breakdowns of Patient Satisfaction Surveys, Incident Reports, Metrics, and Chart Audits to discover trends and formulate action plans for improving services
- Maintained and updated Policies and Procedures for the entire facility
- Inspected treatment inpatient and outpatient facilities to ensure state compliance

Clinical Associate

January 2014 to June 2015

- Conducted 16 educational and experiential therapy groups in the Men's Center a month
- Strategized with treatment team daily to meet patient needs
- Oversaw the Men's Center Roster to ensure accuracy and organization of patient information

16th Edge Studios – Nashville, TN
Audio Engineer

May 2011 to March 2014

- Collaborated with artists to complete projects to their specifications
- Worked closely with producers to execute their vision
- Responsible for maintaining all gear and instruments
- Used Pro Tools to record, edit, and mix tracks
